SINCE 2005

Beijing Hope Pharmaceutical Co., Ltd., established in 2005, is a high-tech enterprise with "chemical drug technology development-Process Optimization-Regulation registration and approval" as its core competence, and has won the title of "China Top 20 Pharmaceutical R&D Company" for several times. Hope Pharma actively builds one-stop service for drug CRO and CDMO, continuously expands its service areas, and establishes good cooperative relations with some leading pharmaceutical companies domestic and abroad.

Intellectual Property Management

- Intellectual property evaluation for R&D projects
- Intellectual Property Evaluation & Monitoring in the R&D Process
- Mining & layout of independent intellectual property rights of enterprises
- Patent and trademark application & maintenance & operation & protection
- Enterprise R&D personnel patent training & consulting

SEVEN STAR PHARMACEUTICAL CO., LTD.

— Since 1962 —

Focus on the development and production of Active Pharmaceutical

Ingredients (APIs)

Seven Star Pharmaceutical Co., Ltd. was founded in 1962 and is located in Tu Cheng District, New Taipei City, Taiwan, covering an area of 13,000 m². Adhering to the quality policy of "Customer Satisfaction, Wisdom Combination, Quality Improvement, and Striving for Excellence" for more than 50 years, we have obtained cGMP certificates from the US FDA and TFDA. We focus on the development and production of Active Pharmaceutical Ingredients (APIs). The products are sold to dozens of countries such as the United States, Japan, Europe, Canada, Mexico ... etc.

Expand the production capacity and increase product variety

In March 2016, Synmosa Group and InnoPharmax merged and acquired Seven Star. Seven Star is the one and only API factory under Synmosa Group. Currently, the API products of Seven Star are mainly exported, our main products are: Guaifenesin, Methocarbamol, Gadopentetate dimeglumine, Sapropterin Dihydrochloride, Gadoterate Meglumine, Acetylcysteine and Carbocysteine. In order to expand the production capacity and increase product variety, Seven Star carried out plant reconstruction and equipment upgrade in 2019. Under the cGMP standard requirements, Seven Star insists to update equipment and implement quality policies. Now that international regulations are becoming stricter with regard to API regulations, Seven Star also demands ourselves with high standard, establish and maintain a complete quality system and R & D team in order to continuously provide customers with the latest and highest quality products.

Luohe Chief Pharmaceutical Co., Ltd. (short as Chief Pharma), founded in 2013, is a high-tech manufacturing enterprise, focusing on the research and development, production and sales of APIs and intermediates in the field of anti-tuberculosis and anti-infection. We're featured with Rifamycin series products, specializing in the production of Rifamycin S, Rifampicin, Rifaximin, Rifabutin, Rifamycin Sodium and other products in a large scale. USDMFs and CEPs for Rifamycin series products have already been submitted, and registration in Europe, USA and other countries and regions has been completed. Chief Pharma regularly accepts client and official audit to ensure that our facilities compliance with worldwide standards.

Luohe Chief Pharmaceutical Co., Ltd. (short as Chief Pharma), founded in 2013, is a high-tech manufacturing enterprise, focusing on the research and development, production and sales of APIs and intermediates in the field of anti-tuberculosis and anti-infection. We're featured with Rifamycin series products, specializing in the production of Rifamycin S, Rifampicin, Rifaximin, Rifabutin, Rifamycin Sodium and other products in a large scale. USDMFs and CEPs for Rifamycin series products have already been submitted, and registration in Europe, USA and other countries and regions has been completed. Chief Pharma regularly accepts client and official audit to ensure that our facilities compliance with worldwide standards.
